## Administrative Outsourcing

Health plan administration is challenged with the complexities of employer demands, government regulations, provider/vendor management, plan design changes, and third party integration requirements. To be successful, your core system must assist you in managing your current block of business and developing new opportunities.

**The WebTPA Way:**

When it comes to health plans, one size doesn't fit all.

## The WebTPA Advantage

The WebTPA claims system is designed to provide companies of all sizes the tools needed to compete in the evolving healthcare market. Our claims system supports:

- Multiple product lines, including Indemnity, PPO, EPO, POS, HMO, Medicare, Defined Contribution, and Limited & Supplemental Medical Plans
- Integration of plan design, finance, eligibility, claims, providers, customer service, and utilization management into one system
- EDI, scanning, OCR, workflow management, and “real time” web transactions

## Fulfilling Insurance Carriers' Administration Needs:

- Medical / Vision / Dental Claims
- Indemnity
- Supplemental
- Medicare
- COBRA/HIPAA

## Complete Integration:

- Finance  
Eligibility ← Plan Design  
Claims
- Customer Service
- Reporting (Broker and Carrier)
- Utilization and Care Management

## Experienced. Flexible. Innovative.
